Columbia Adaptive Risk Allocation Index", and "SG Lead Asset Select Exposure Rotation Index" (collectively, the "SG Marks") are trademarks or service marks of SG. SG has licensed use of the indices and the SG Marks to Americo Financial Life and Annuity Insurance Company ("Americo") for use in fixed indexed annuities. For the SG Columbia Adaptive Risk Allocation Index, SG has licensed use of certain marks from Columbia Management Investment Advisers, LLC or its affiliates (collectively, "Columbia Management") and sub-licensed use to Americo. Neither SG, Solactive AG, Columbia Management, S&P, nor any other third-party licensor has been authorized to act as an agent of Americo or has in any way sponsored, endorsed, sold, promoted, structured or priced any fixed indexed annuity or provided investment advice to Americo. Such parties make no representation regarding the advisability of purchasing, selling, or holding product linked to an SG Index, including Fixed Indexed Annuity, and shall not be liable for any related loss or payment thereof. Obligations to make payments under the fixed indexed annuities are solely the obligation of Americo. Neither Americo nor SG are obligated to invest annuity payments in the components of an SG Index. The Index levels are net of a 0.50% annual maintenance fee, calculated and deducted daily. Each SG Index also deducts fees to cover rebalancing, replication, and other costs. The total amount of these fees is unpredictable and depends on a number of factors. These fees and costs, which are increased by each SG Index's leverage, will reduce the potential positive change in such SG Index and increase the potential negative change in such SG Index. While the volatility control applied by each SG Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls. * Ratings refer to the claims-paying ability of the insurance company and do not reflect the performance or safety of any investment product. The rating agencies listed are independent of each other and use proprietary evaluation criteria and rating scales.

** The Comdex Ranking is a composite of the financial strength ratings as determined by Standard & Poor's, Moody's, AM Best, and Fitch ratings. It ranks insurers on a scale of 1 to 100 (where 1 is the lowest) in an effort to reduce confusion over ratings because each rating agency uses a different scale.

† The minimum participation rate is 4% for the S&P 500 index option and 10% for all other index options. The guaranteed minimum interest rate for the Fixed Interest Option is 2.75%.
