Obligations to make payments under the fixed indexed annuities are solely the obligation of Americo. Neither Americo nor SG are obligated to invest annuity payments in the components of the Index. The Index levels are net of a 0.50% annual maintenance fee, calculated and deducted daily. The Index also deducts fees to cover rebalancing, replication, and other costs. The total amount of these fees is unpredictable and depends on a number of factors. These fees and costs, which are increased by the Index's leverage, will reduce the potential positive change in the Index and increase the potential negative change in the Index. While the volatility control applied by the Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls. * Ratings refer to the claims-paying ability of the insurance company and do not reflect the performance or safety of any investment product. The rating agencies listed are independent of each other and use proprietary evaluation criteria and rating scales.

** The Comdex Ranking is a composite of the financial strength ratings as determined by Standard & Poor's, Moody's, AM Best, and Fitch ratings. It ranks insurers on a scale of 1 to 100 (where 1 is the lowest) in an effort to reduce confusion over ratings because each rating agency uses a different scale.

† The minimum participation rate is 4% for the S&P 500 index option and 10% for all other index options. The guaranteed minimum interest rate for the Fixed Interest Option is 1%.
